

## Trending Market

- 1 Is there is a minimum if 3 or more candles into the zone?
- 2 Did price enter the zone too fast? If so wait for signs of rejection.
- 3 Are your fibs on the right structure? (Micro/Macro)
- 4 Does the setup work for all 3 timeframes?
- 5 Is there a trendline you should be wary of when setting SL
- 6 Is the SL above 6 pips?

## Consolidating Market

- 1 Is there a sign of rejection at the consolidation edge?
- 2 Has the devil's advocate fib been activated?
- 3 Did price enter the zone too fast? If so wait for signs of rejection.
- 4 Does the setup work for all 3 timeframes?
- 5 Is SL in the best place? Should it go past any wicks or closes of candles?
- 6 Is the SL above 6 pips?
